DPF CLEANER

Features
UTB DPF Cleaner cleans and restores your diesel particulate filter. It reduces soot buildup, clears blocked filters and improves exhaust flow for optimal engine performance. Suitable for all diesel vehicles equipped with a DPF system. For preventive maintenance or to support passive regeneration:

- Removes soot and ash deposits
- Improves exhaust flow
- Supports fuel efficiency and engine performance
- Suitable for all diesel engines with a DPF system

Applications
Add one bottle of UTB DPF Cleaner to the fuel tank (for 40 to 60 liters of diesel) and drive for 20 to 30 minutes at highway speed to promote the regeneration process. Repeat annually or at each service interval.
