ENGINE PROTECTOR

Features
UTB Engine Protector protects and optimises your engine. It is a high quality engine additive that significantly reduces friction and wear and provides extra protection during critical moments such as cold starts. Suitable for all petrol and diesel engines and fully compatible with all mineral, synthetic and semi synthetic engine oils. To be used after every oil change for longer engine life and smoother operation:

- Significantly reduces friction and wear
- Provides extra protection during cold starts
- Suitable for all mineral and synthetic engine oils

Applications
Add one bottle of UTB Engine Protector to the warm engine oil, preferably immediately after an oil change. One bottle is sufficient to treat up to 5 liters of engine oil.
