PETROL TREATMENT

Features
UTB Petrol Treatment cleans and protects your entire petrol fuel system. This high quality fuel additive effectively removes deposits from injectors and intake valves, restoring fuel efficiency and improving engine performance. Suitable for all petrol engines, including modern turbocharged and direct injection systems, and fully compatible with E10 and ethanol blends. For optimal combustion and long term protection of the fuel system:

- Thoroughly cleans injectors and intake valves
- Restores fuel efficiency and engine performance
- Fully compatible with E10 and ethanol fuels

Applications
Add one bottle of UTB Petrol Treatment to the fuel tank before refuelling (suitable for up to 60 liters of petrol). For best results, it is recommended to use the product at every oil change or at least once a year.
