SYNLUB FE 5W30

Description

Synlub FE 5W30 is a fuel economy motor oil, developed according the most recent technology, based on specially selected synthetic base oils. By applying advanced additives the exceptional performance of this low SAPS motor oil is accentuated.

- a lower fuel consumption
- suitable for modern catalysts
- low combustion ash building (low SAPS)
- a fast cold start
- a safe lubrication film at high temperatures
- a very good detergency and dispersion
- a very strong protection against wear, corrosion and foaming

Application

Synlub FE 5W30 is a fully synthetic engine oil based on specially selected high quality base oils.
This oil is specifically designed to meet the requirements of WSS M2C913-C / D specifications of Ford, which is valid for all Ford vehicles (petrol / diesel and cars with particle filter) from 2009, including 2.2 Duratorq TDCI engines. This oil replaces the M2C-913-A / B specifications.
