SYNLUB FJL 0W30

Characteristics

A synthetic, fuel-efficient engine oil, developed using the latest technology and based on specially selected synthetic base oils, enhanced with advanced additives to provide the following properties:

- fuel economy;
- reduced formation of combustion residues (mid-SAPS);
- very smooth cold starts;
- a reliable lubricating film at high operating temperatures;
- extended oil-drain intervals;
- excellent detergent and dispersant properties;
- strong anti-wear, anti-corrosion, and anti-foaming capabilities.

Application

This synthetic, fuel-efficient, "mid SAPS" engine oil is suitable for petrol, LPG, and diesel engines—both naturally aspirated and turbocharged—in passenger cars and vans. Due to its low SAPS content, this product can be used in vehicles equipped with modern three-way catalytic converters and particulate filters. It is highly suitable for Ford engines for which the manufacturer specifies a product that meets the Ford WSS-M2C950-A standard with an SAE 0W30 viscosity grade.

Specifications

ACEA C2 | Ford WSS-M2C950-A | Jaguar Land Rover STJLR.03.5007 | VW VWC 53035

Typical properties

Density at 15°C	g/cm³	0,847
Dynamic viscosity -35°C	mPa·s	5800
Kinematic viscosity 40°C	mm²/s	49,3
Kinematic viscosity 100°C	mm²/s	10,0
Viscosityindex	-	195
Flashpoint COC	°C	230
Pourpoint	°C	-48
TBN	mg KOH/g	7,7
Sulfate-ash	%	0,8

Volume	Art.no.
1 ltr	310781
4 ltr	310784
5 ltr	310785
20 ltr	3107820
60 ltr	3107860
208 ltr	31078208
Bulk	31078
