TRANSMISSION OIL SYN UTTO

Description

Transmission Syn UTTO is a fully synthetic UTTO (Universal Tractor and Transmission Oil) oil specially developed for transmissions, hydraulic clutches and wet brakes. The product meets the Volvo WB 102 requirements for wet brakes. Transmission Syn UTTO has a low pour point, excellent anti-friction properties (anti-stick slip) which prevents grinding and the anti-wear and extreme pressure properties ensure the lubrication of gears, pumps, bearings and the hydraulic system. This fully synthetic UTTO oil has a very long lifespan and is ideal for longer drain intervals.

Application

This oil is primarly intended for the Volvo “standard 97304 (WB 102)” applications. But can also be used for automatic transmissions, hydraulic systems, wet brakes, convertors for tractors, forklifts and different offhighway equipment providing the viscosity grade 75W80 is recommended.
